Item 8.01. Other Events.

As Great Lakes Dredge & Dock Company (the "Company") disclosed in its Annual Report on Form 10-K for the year ended December 31, 2007, the Company partially self-insures costs associated with hull and machinery liability, general liability and personal injury claims, up to certain limits. A portion of the Company's self-insurance is affected through the Company's membership in The West of England Ship Owners Mutual Insurance Association (Luxembourg) ("West of England" or the "Association"). West of England is an international protection and indemnity club that provides its members with liability insurance and ancillary cover.

Under West of England's rules, its members for any policy year are required to pay certain amounts (referred to as "calls") to West of England based on its estimates of, among other things, requirements in respect of claims, reinsurance premiums and expenses for such policy year. For each policy year, West of England assesses members "advance calls" which constitute the members' basic rate of contributions. West of England may also assess its members "additional calls" for any open policy year in order to provide the Association with the amount of funds needed to satisfy its liquidity needs for the applicable policy year.

On December 4, 2008, the Company received West of England's December 2008 Notice to Members (the "Notice") pursuant to which the Association notified its members that as a result of current investment volatility and claims experience, West of England anticipates that it will incur investment, currency and property valuation losses that may cause its free reserves to decrease by more than \$100 million as of February 2009. Accordingly, in the Notice West of England instituted additional calls for policy years 2006 and 2007 and a potential call for the 2008 policy year, which, if fully paid, are expected to generate a total of approximately \$140 million from its members.

In connection with its receipt of the Notice, the Company anticipates that it will record a charge against fourth quarter 2008 earnings of approximately \$2.2 million, which will be paid in 2009. The Company expects to finalize any additional earnings impact relating to the Notice prior to its release of 2008 earnings.
